

THURNHER'S ALPENHOF

Leave your everyday routine at home; your stay at Thurnher's Alpenhof will be a winter's fairy tale. Thurnher's Alpenhof has been in the possession of the same family for 45 years. With its 14 rooms and 24 suites it is one of the most exclusive addresses in the Alps. Thurnher's Alpenhof is a true winter sports hotel open from early December to mid-April. No two of the 14 rooms and 24 suites in Thurnher's Alpenhof are alike. All have been individually decorated with great care and loving attention to detail. Classic furnishings combined with contemporary comfort, high-quality soft fabrics, warm, light colours and valuable antiques and art create a truly individual and comfortable atmosphere. The expansive panorama windows provide all rooms in the 5-star hotel with a breathtaking view of the surrounding mountain landscape. The restaurant, lobby and bar offer magnificent views over the mountains, and of course, the restaurant offers delicious food, including some of Austria's most delectable specialities. The atmosphere is all one can wish for on a ski holiday; crackling fires in the chimneys and a romantic view of dancing snowflakes or brilliant sunshine outside. And what could be more relaxing and enjoyable than recovering from a delightful, yet exhausting day of ski in the warm and soothing spa. The indoor pool is heated at 30°C and has a counter current flow. In order to really relax your muscles and prevent them from aching, there is the sauna and steam bath, not neglecting the massage treatments. For those who wish to take a day off from skiing, the hotel's in-house sport instructor offers aerobic courses, stretching, and water gymnastics.

Ideally located just down the slopes you can literally ski into the hotel. With more than 80 modern mountain railways and lifts the Arlberg ski circus will offer you the perfect winter sports pleasures on 260 kilometres of prepared ski slopes and more than 180 kilometres of virgin powder snow and invigorating fern slopes. ■
